 Cut

Step	Description	Illustration
1	Identify the grille & hardware with parts list.	
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. If you are still unable to access the rear, remove the grille shell and reattach after installation.	
3	Take out all hardware, clip fixed tab with stretchy plates, and make sure that holes are aligned.	
4	Remove the plastic pack on grille, put it on the factory grille shell, and then make it is centered	
5	Place screws through the welded tabs on the grille, and attach a stretchy lock plates on the end of each screw. Turn the screws so that it is vertical, and tighten. But not over-tighten!	
6	Make sure the billet grille is centered and tighten the fasteners.	
7	Reinstall the black plastic cover which was removed in step 2.	
8	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result.
 Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation.
 We are not responsible for any damage caused by the installation. Thank you for choosing our product!
